

WHAT IS CLAIMED IS:

1. A component part for a fuel battery comprising:
a pair of separator plates which are arranged in
parallel to each other in a state of having a gap between
contact surfaces thereof opposing to each other; and
a gasket arranged in a gasket groove, which is
provided in one or both of said separator plates, and
adhered to each of both said separator plates,
wherein said gasket is compressedly deformed
within said gasket groove at a time of both said
separator plates being closely attached to each other
with the contact surfaces for assembling of the fuel
battery cell.
